

Left panel is from Jacobs et al. JAMA Neurol. 2014;71(7):921-923. doi:10.1001/jamaneurol.2014.870. Right panel is a plot of data estimated from the left panel. Visual inspection indicates acceptable data extraction accuracy.

**Note:** Reported values of  $r^2$  and  $p$  in the published plot (left) are incommensurate. With effect size  $r = -0.51$  and  $n = 28$ ,  $p = 0.01$ .
